

Weather Condition	Effect on the Game	Batting Benefit (1–10)	Pace Benefit (1–10)	Spin Benefit (1–10)	Captain Choices	Players to Avoid
Heavy Dew	Wet ball reduces grip, making bowling difficult. Chasing becomes easier.	10	3	2	Chasing opener, wicketkeeper-batter, finisher	Spinners bowling second, defensive bowlers
Light Dew	Slightly easier batting in the second innings.	8	5	4	Top-order batter, batting all-rounder	Finger spinners in second innings

Rain (Before Match)	Moist pitch provides seam and swing movement early.	3	9	4	New-ball fast bowler, swing bowler	Aggressive openers unfamiliar with swing
Rain (During Match)	Overs reduced (DLS), aggressive batting becomes crucial.	8	6	4	Explosive opener, finisher, death-over pacer	Defensive anchor batters
Heavy Cloud Cover	Maximum conventional swing for fast bowlers.	3	10	3	Opening fast bowler	Lower-order batters

Partly Cloudy	Some swing available in the early overs.	6	8	5	Opening pacer, top-order batter	Middle-order accumulators
Sunny & Dry	Hard pitch offers true bounce and consistent batting conditions.	8	5	6	Top-order batter, batting all-rounder	Medium pacers without variations
Extreme Heat (35°C+)	Pitch dries and wears, bringing spinners into the	7	4	8	Middle-order batter, frontline spinner	Pace-only bowlers in long spells

	game later.					
High Humidity (70%+)	Enhances swing early and often leads to dew later.	5	8	5	Swing bowler, opening batter	Finger spinners in the powerplay
Low Humidity (<40%)	Little swing; dry conditions help batting.	8	3	5	Power hitters, top-order batters	Swing-dependent pacers
Strong Wind (>20 km/h)	Affects lofted shots, bowling control, and catching.	5	8	4	Swing bowler, wicketkeeper	High-risk aerial hitters batting into the wind

Light Breeze	Slight assistance for swing bowlers.	7	6	5	Opening fast bowler	None (balanced conditions)
Cold Weather (<15°C)	Ball remains harder and swings for longer.	4	8	4	New-ball fast bowler	Lower-order batters
Fog / Mist	Reduced visibility can affect fielding and catching.	7	4	4	Top-order batter, wicketkeeper	Outfield fielders, high catches near boundary
Dusty / Dry Surface	Pitch deteriorates and	6	4	10	Frontline spinner,	Express fast bowlers

	increasing ly favors spin.			spin all- rounder	relying on pace
